

## **We evaluate your company**

You introduce us to your company, providing as much information as possible. We analyse and evaluate it for free. You will receive a confidential and free report that tells you if you can work with us or what we can do for you. "The Opportunity" aims to help entrepreneurs reactivate their inactive consulting firms due to the pandemic or lack of clients.

## **We devise and organize a development plan**

Suppose our due diligence is positive, and we have agreed on a strategic agreement. In that case, we will produce a development plan free of charge to relaunch your company, accredit you as a partner, or insert you into some of our projects or our customers' projects.

## **Marketing Planning & Strategy and new grow up**

We help companies increase sales and profits and build a winning marketing strategy. By collaborating with us, you can propose hundreds of solutions to your old and new customers that we will help you win back or find.
